## A.T.H.S. Gift Concert At 3 P. M. Sunday To Include Carol Singing

### Santa Claus to Bring Candy to Children—Free Event Is Family Affair

Antioch Township High School will present its "Christmas Gift to the Community" on Sunday afternoon, Dec. 18th at 3:00 p. m. The "gift concert" will be held in the high school auditorium. Following the concert a brief reception for students, parents and friends will be held in the boys' gym.

The Christmas concert promises to appeal to all. Charles Watson, of Camp Lake, director of one of the Antioch Church choirs, will lead the audience in singing of carols. Santa Claus will attend with a big sack of candy canes for the children.

Selections by the band include "Noel," an arrangement of Christmas favorites which is scored in an unusual way. Other selections will be "Joytown U. S. A.," "Jesus, Joy of Man's Desiring," and "Santa Claus Is Coming to Town."

The Girls Glee Club will blend their voices on the favorites "Christmas Candles" and "White Christmas." The a cappella choir will interpret Fred Waring's arrangement of "Twas the Night Before Christmas."

Concluding the program will be a thought provoking series of songs by the choruses telling the "When," "Where," "Who," and "Why" of Christmas. Finale will be the magnificent "Hallelujah Chorus" from Handel's "Messiah."

Committee chairmen are Donald Wertz, decorating committee; and Barbara Smith, reception committee. Presidents of the participating groups are: Judy Pyle, Girls Glee Club; Don Wertz, A Cappella Choir; and John Kelly, Band.

Come and bring the family to the Christmas Gift Concert!

## Federal Court Rules Pinballers Call For Gaming Device Stamp

The federal district court has ruled that pinball machines are slot machines and come under the federal law that requires a license fee at a rate of \$250 a year.

At the same time U. S. Atty. William Barnett of Chicago has declared that he will vigorously enforce the law requiring payment of the fee.

The court ruling came out of the case against Walter Korpan of Korpan's Landing, Fox Lake, who refused to obtain a license on the basis that the pinball machines were not slot machines and not gambling. The decision was against him.

Antioch has 8 pinball machines on the basis of local license fees which are \$60 a year. At one time there were more, but they have been dwindling either because some of the merchants didn't want to expose them to young people which were the best customers, or that there wasn't enough profit in them.

The village has permitted them on the basis that no decision was ever given by a state court as to whether they were gambling devices or not.

Whether the business places that now have them will be able to continue to make a profit with the \$250 federal fee added remains to be seen. If they can't the village stands to lose \$480 in revenue.

## Mantis, Kantos Close Antioch Cafe, Unable To Get Lease Wanted

When Gus Mantis and his partner Nick Kantos closed their Antioch Cafe Sunday night it was forever.

Unable to obtain a satisfactory lease, the restaurant men decided to bring to a close their many years of business in Antioch. Mantis opened the restaurant in the depression year of 1932 and nine years later took in a partner. The firm has been a partnership since that time.

"I'm very appreciative of the people who patronized me all these years," said Mantis. "We had good business and would still be in business in Antioch if we could find a satisfactory room."

Mantis is storing his fixtures for the time being, and with his family will continue to make his home in Antioch where he has many friends.

**Freshman Team Undeclared**  
The Antioch High School freshman basketball team has won three games so far this season. First they defeated Waukegan 38 to 26. Saturday they defeated Grayslake 48 to 38, and on Monday they beat the Grant freshmen 42 to 16. Stuart Good is their coach.

## Antioch Wins Over Grayslake 68 to 53; Loses to Grant 47-61

### Will Play Unbeaten Waukegan There Tomorrow; Sophes Beat Grant

After trouncing Grayslake 68 to 53 last Friday, the Antioch Sequoits fell before the Grant Bulldogs Tuesday evening, 61 to 47.

It was the first defeat of the season for the Sequoits who tomorrow evening will take on the undefeated Waukegan Bulldogs there. Waukegan defeated Grayslake Tuesday evening, 63-53, which indicates a strength just about equal to Antioch's.

Grant High players proved to be better shots in their game here Tuesday evening making 40 per cent of their tries against 30 for Antioch. The deadly shooting of Danny Hodge coupled with the brilliant rebounding of 6 foot 5 inch Pat Tierney who controlled both boards was too much for the home boys.

Antioch took a 6-2 lead at the outset, but the Bulldogs came back with five straight baskets and led at the quarter 16 to 9. They were never headed.

Al Reckers, to whom Antioch had looked for chief scoring strength, had to sit out much of the game with four personal fouls. At that he was high point man for the team. "Grant has a good ball club," commented Coach Larry Leon, "but (Continued on page 5)

## Officers Chosen for Condell Hospital Drive for Goal of \$92,500

Glenn G. Hoskins, president of the First Lake County National Bank, has accepted the chairmanship of a campaign for the Condell Memorial Hospital in Libertyville, according to E. Grant Pinney, president of the hospital board.

John J. Noel, Mayor of Mundelein, and Dr. M. D. Penney, Libertyville physician, have agreed to serve as vice-chairmen of the campaign.

Goal of the campaign has been set at \$92,500 which will complete the payment of the new Hannah Hough Maternity Wing construction, furnishings and equipment plus improvement of other hospital facilities which the new wing made necessary and possible. These were opened for the use of the public June 6, 1955.

A memorial gift was received by the hospital late in 1954. This gift plus funds on hand were not sufficient to pay the entire cost of the much-needed maternity wing. Hospital directors and the medical staff felt that immediate construction was necessary to meet the demands of a greatly expanding hospital area.

At the time it was known that there would be a shortage of funds for the new addition to the hospital. It was decided to have the campaign for the balance of necessary funds after the wing was constructed, furnished and in use in order that the people of the area might know what had been provided for them.

Since the opening of the new Maternity wing last June, 327 babies have been born at the hospital. The most unusual case was that of little Cindy Wrosch, born July 1 and weighing one pound, thirteen ounces at birth. For three months the child was provided loving care with the use of new equipment and on December 1 she weighed eight pounds and fifteen ounces at the hospital.

In accepting the general chairmanship, Mr. Hoskins said, "The importance of the Condell Memorial hospital to the life of this community cannot be over-emphasized. Each of us has a responsibility to see that the facilities of the hospital are enlarged as the community grows."

**P. O. Open Two Wednesdays**  
The Antioch post office will be open Wednesday, December 14 and 21, but will resume the Wednesday closing December 28, according to Postmaster Roy I. Kufalk.

## Lake Villa Adopts A Planning Commission; To Elect Magistrate

### Carl Reinebach Resigns as Clerk to Be Succeeded By Neil Reidel

Lake Villa's board of trustees chose a seven-man planning commission Monday evening and set April 10 as the date of a special election to choose a police magistrate.

The planning commission will supplement the recent zoning commission.

Carl W. Reinebach, village clerk for 28 of the last 32 years, resigned and Mayor Ervin Barnstable appointed Neil Reidel, a feed merchant to take his place. Reinebach has a heart condition that makes necessary his curtailment of activities. Reidel will serve as an appointee until the next election in April, 1957.

Lake Villa has been without a police magistrate since the resignation of Everett Gallagher.

The engineering firm of Anderson and Anderson announced that plans and specifications for the new sewer system will be ready by January 9. Two bond issues totaling \$119,000 were passed to defray the expense of the sewage disposal system.

Henry Jarvis was appointed to the planning commission, joining five members of the zoning commission who will become members of the newer group. They are William Gallagher, chairman; Russell Nickerson, Donald Oilschlager, C. E. McCarthy, and Joseph Nader, Jr.

## Opinion Sought on New Town Building, First Aid Squad at Lake Villa

The Lake Villa Community Men's club will send out a questionnaire to voters of the township seeking their reaction to a proposal that a township building be built through taxation which will serve as town hall and office for the supervisor and a community meeting place.

The club will also sound out opinion on the organization and financing of a rescue squad. Lake Villa is now dependent on Antioch and Fox Lake rescue squads for first aid service.

Members of the club dined at the grade school in Lake Villa Tuesday evening and listened to a program of instrumental music by pupils of the school director, Thala Rush.

New officers installed are Delbert Black, president; Harold W. New-year, first vice-president; David Findlay, sergeant at arms; B. J. Hooper, treasurer; Charles Von Oeyen, secretary; and Harry Weber, second vice-president.

## Cardi's Restaurant Sold to H. T. Marks

Cardi's Restaurant, opened in the Fields building almost four years ago by Mr. and Mrs. Harold Cardiff, is under new ownership today, having been bought by Harold T. Marks, Sr. The transfer of ownership took place Dec. 5.

Ill health has been responsible for the sale, Mr. Cardiff having suffered a heart attack some months ago, and while his health is steadily improving, a long rest was prescribed by his doctors.

The name of the business will remain the same, at least for a time, and hours and operation of the business will also remain substantially the same, according to the new owner.

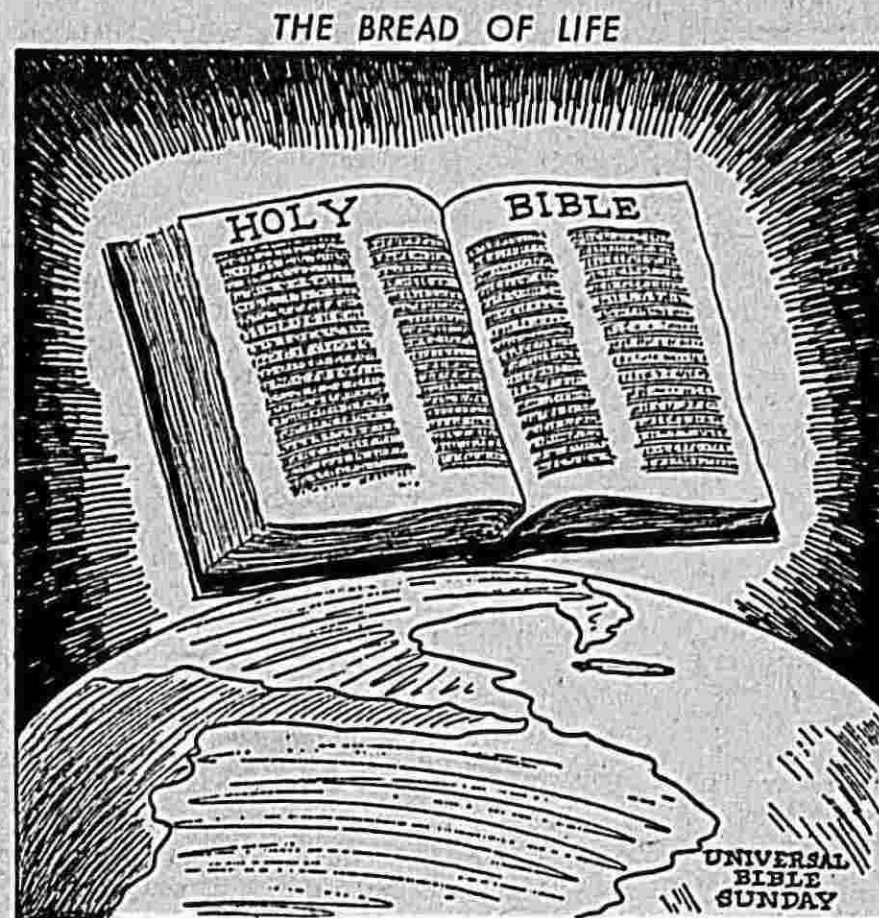

Cardi's has been the unofficial headquarters for the younger element, and a farewell party was given the basketball squad, the coaches and other members of the school faculty last Friday evening.

The Cardiffs will continue to make their home in Antioch.

Marks has been a resident of Salem, Wis., for the past seven years and has had long experience in the food and catering business. He is the owner of a grocery store in Salem.

**Knock on Wood—No fires**  
Fire Chief Edgar Simonsen says that volunteer firemen in this area are getting a little jittery. There hasn't been a fire of any consequence for several weeks and they fear that this is a foreboding of a serious one.

On the other hand the years of warning and caution against carelessness which results in fires may be taking effect and if it is the firemen are pleased. None of them wants to get out in this cold weather on any kind of a call.

## Minstrel Show of Antioch Community Band Will Give Opportunity to Laugh and Relax

## Board Draws Contract for Sale of Water to Wisconsin Residents

Members of the village board and their attorney E. C. Jacobs spent two hours Tuesday evening with Edward Benjamin of the Chicago firm of Benjamin and Lang drawing up a contract for the sale of water to Oakwood Knolls residents in Wisconsin.

Benjamin said that a non-profit cooperative incorporation would be set up for the residents in a 55-lot area of Oakwood Knolls across the line in Wisconsin and probably would be called the Cross Lake Water Co.

Under the contract Antioch will supply the water through a meter just inside the Illinois line at a rate of 35 cents a thousand and a \$5 meter charge. The contract stipulates that no water can be used outside the 55-lot area.

Benjamin said there are now five houses in the Wisconsin portion of Oakwood Knolls, and three more are under construction. Twelve will be added next year.

The village has been selling water there by meter for more than a month at a 35c rate.

The rest of Oakwood Knolls in Illinois is incorporated as a part of the village.

A suggestion by Benjamin that a 20-cent rate be charged, was ignored by the trustees. He said that at the 35c rate the Wisconsin residents necessarily must pay 50 cents to take up any loss and provide service. There is no water to speak of in the Wisconsin section, so that drilled wells are out of the question.

The contract will be signed at a later date as soon as the new corporation is formed.

## Chamber of Commerce Will Promote Lakes As Recreation Area

Norman Jedele, local certified accountant, gave the 30 members of the Antioch Chamber of Commerce some profitable advice Monday noon when he addressed them on income tax at Smart's Country House.

Each year new regulations appear and the reporting becomes more complicated the average man feels. Jedele attempted to simplify it for the business men.

Jedele was introduced by George Borovicka, who had charge of the meeting.

The chamber decided to conduct a fishing rodeo next summer. Fish will be tagged and turned loose in Lakes Marie, Catherine, Grass, Channel, and Petite and the persons who catch them will be given prizes of cash or merchandise.

The business men also decided to have a booth at the sports show in Chicago and will hand out literature concerning the Antioch area as a good recreation grounds.

**Will Address Principals**  
Richard Bartel, placement director of the Northern Illinois State College, will address the principals of the Northwest Suburban Conference at a meeting to be held at Elva Vernon Township High School next Wednesday. Principal A. L. Dittman will attend.

## Village Opposes Bus Service to Waukegan on Weekly Fare Basis

### To Object on Basis That Antioch Never Notified Of Hearing

The village board instructed its attorney, E. C. Jacobs to file with the Illinois Commerce Commission an objection to the weekly bus service from Antioch to Waukegan proposed by a group of Waukegan merchants on the basis that the village was not notified of the hearing.

The motion to act on the matter was made by Trustee John Blackman and seconded by Trustee E. H. Glenn.

Other villages affected by the same proposal are contemplating the same procedure.

Copies of the petition for the two trip service to supplant the free service now extended by the Waukegan merchants to shoppers were exhibited to the trustees by President George Borovicka and Atty. Richard Seyfarth of the Chamber of Commerce.

The question was raised as to whether the opportunity of travel and rates apply to coming to Antioch to shop as well as going to Waukegan to shop. If it does, then Antioch merchants will be able to compete.

The petition indicates that should the patronage pay for itself on a basis of 50 cents the round trip the Waukegan merchants will meet the deficit.

At present the Waukegan merchants bear the entire expense of \$30 a trip. Should buses be filled there would be no expense to them at the rate proposed.

Borovicka and Seyfarth were told that a hearing was held December 2, but that the commission has not acted on the matter. No one in Antioch knew of the hearing.

Atty. Jacobs raised the question as to whether the franchise of a former transit company still exists and whether in the face of that a franchise can be given to the Waukegan group even for a 90-day trial period as asked.

Trustee Arthur M. Hawkins declared that Antioch merchants should be protected, and that anything that hurts their business hurts Antioch as a whole.

Seyfarth pointed out that reduction of business in Antioch reduces the sales tax the village will get.

## All School Boards of H. School District Will Meet Tonight

Members of all grade school boards of districts lying within the high school district have been invited to attend a meeting at Antioch high school this evening (Thursday). The invitations to the boards are issued by the high school board and the purpose of the meeting is "to discuss common problems" according to the letter.

In addition to the invitations to school board members, a special invitation has been issued to all grade school principals of the district.

A growing feeling that a closer connection between elementary schools and the high school would result in better education for children has been evidenced of late years, and the tendency toward unification of schools has also been shown.

While no exact information as to just what the meeting tonight will take up, it seems that matters of curriculum and perhaps an exploratory discussion concerning unification of the school systems of all schools within the high school district under one head will take place.

It is believed that establishment of a junior high school will also be a topic for discussion.

## Lions Bowling Tournament

Antioch Lions Club members will be invited to provide one or more bowling teams in a district tournament to be held January 22 at the Gunnell lanes at Rtes. 12 and 83. Henry Valley of the Mount Prospect Club is in charge of the tournament. It is an annual event and lasts an entire day. Eighty-five teams participated last year.

## Scholarship Renewed

John Topercer, son of Mr. and Mrs. John Topercer, Sr., owners of the Pantry restaurant, Antioch, has received word that his scholarship at Marquette University has been renewed for another year. Topercer has been unable to play football this season due to an injury received in practice, but will be recovered sufficiently to play next year.

**Santa at Hardware Store**  
The Coddington Hardware store has arranged for Santa Claus to be at the store of evenings, all day Saturday and on open hours on Sunday starting December 12 and ending Christmas eve.

### First Step

"Taxes should be reduced, but the first step is a balanced national budget, and every effort must be bent to balance the budget." That eminently logical statement comes from Congressman Rees of Kansas. Then he says: "Government employment can and should be reduced at least 10 per cent without any impairment of essential government services. In fact, greater efficiency should result."

Here is a goal that Congress and the Executive branch should go all out to reach—and, in doing that, they will earn the heartfelt thanks of the hardpressed American taxpayer.

\* \* \*

### The Importance of Sea Power

A very distinguished authority, Admiral Robert B. Carney, formerly Chief of Naval Operations, has contributed a compelling article on "Principles of Sea Power," to the U. S. Naval Institute Proceedings.

In one section, Admiral Carney points out that—difficult as it is for many Americans to believe it—this country is not and never has been a self-sufficient nation. Foreign trade has been a necessity to us from our national beginnings. Today a long list of essential strategic items—chromite, antimony, bauxite, mica, and so on and so on—must be imported, via the seas, from other countries. We are even becoming increasingly dependent on overseas sources for such basic materials as iron ore.

Trade expansion is vitally related to sea power. Our exports and imports both have more than doubled since the pre-World War II era. As Admiral Carney says: "All of the American dollars and human effort being placed in overseas improvement and development for our trans-ocean friends would be lost if we lost our ability to use the seas."

Sea power, using the term in its broadest aspect, is inextricably a part of our military security and our economic well-being alike. And sea power means that we must have naval and related military forces to keep the sea lanes open to us—along with a large and modern merchant marine, flying the U. S. flag, which can carry our exports to the corners of the world and bring our imports back.

\* \* \*

### Coal Looks at Atom

The coal industry's biggest customer is the electric industry. How does coal look on the potential

use of atomic energy as a fuel for generating electricity?

That question has been answered by the Atomic Energy Committee of the National Coal Association, in this statement: "The committee recognizes that with the advent of atomic energy as another source of fuel, the coal industry has new responsibilities and opportunities. The committee intends . . . to keep our industry well informed so that it may take action in its enlightened self-interest toward lowering its own cost of production, costs of transportation, and improving its efficiency."

"The use of atomic energy will be determined on the basis of economics. It is not a monster that will swallow the coal industry. . . ."

"There is not now a foreseeable plan whereby the costs of atomic generated electricity may be considered competitive with modern coal-fired plants. There should be no slowdown in the construction of conventional power plants using conventional fuels."

"It is assumed that in isolated locations and areas where other fuels are not abundantly available atomic energy may help coal, oil and gas improve our standard of living by the production of more power at reasonable cost."

"This should be done, within the framework of our free enterprise system, without subsidy which would create unfair competition for conventional fuels."

There's nothing dog-in-the-manger about that attitude. It is intelligent and forward-looking—and it is definitely in the public interest.

\* \* \*

### The Low Down From Hickory Grove

You know, with Congress hanging up the fiddle and the bow and layin' down the shovel and the hoe until next January, the time is ripe for somebody besides a senator or a congressman to get a word in edgewise. The time is ripe to hold seminars throughout the land and delve into whose money is it that Congress lades out like as if it grew wild in thickets and in bogs, etc.

Congress being home for the autumn, will listen in—governors and commercial clubs too, can hark. Governors and commercial clubs needle Congress for "matching money" for local improvements. Governors and commercial clubs are not many jumps ahead or behind Congress on the "savvy." It is time for the lunch clubs and for John Q. himself to open up with both barrels and get the "matching money" out in the open where we can see the name plate on same.

The name plate will say this money is the same foldin' stuff that we left with the income tax man last April—except it is a bit short—eroded. A corner has been snipped off. What we get back is less than what we put in. It is super-simple if we stop, look and listen. We been short-changed. "Matching money" is plain bunkom—nonsense. This is one time to look the gift horse in the month—both uppers and lowers—it will be illuminating.

Yours with the low down,  
JO SERRA

### Illinois Egg Law

#### Clarified for Both Producers-Consumers

The comparatively new Illinois egg law has been the object of much recent writing. This is an effort by a special education committee to clarify the law's points for the benefit of producers and consumers.

Certainly the egg industry in this state has not been subjected to as strict regulation as it has in some major egg-producing states. The contention is that the Illinois producers have suffered in market prices as a result. Consequently, the egg law was instituted as a start in the direction of improving the quality of Illinois-produced eggs—or at least giving the egg consumer more protection.

It is not amiss, therefore, to take a look at what the law does for the persons who eat Illinois-produced eggs.

Obviously, in the past the housewife faced something of a gamble in buying eggs. Some were candled, some were not. One week she might get high quality eggs. The next week the quality might be low. There was no specified system in effect providing the consumer with knowledge of what various grades of eggs meant at any particular store, and no real assurance that the eggs were as advertised. She had to rely entirely on the integrity of the seller. In fairness, it ought to be added hastily that a large per cent of the sellers had and merited the confidence of the purchaser.

By setting up candling, labeling and advertising requirements the Illinois egg law does increase assurance to the housewife that she is getting value for money spent in buying eggs.

The provision that all eggs bought by an egg dealer be candled and that the sale of inedible eggs is prohibited intends to keep bad eggs off the market.

The law provides that eggs for sale through wholesale and retail outlets be either labeled as ungraded or according to grade. If the housewife is buying eggs labeled "ungraded" she is aware that she has no assurance of their uniform quality. This awareness is certain to increase the consumer's knowledge of egg quality and will tend to cause her to demand better and more uniform egg quality.

It is obvious that the law's pro-

vision prohibiting misleading advertising as to egg quality is a protection for the buyer. It requires that the advertising be consistent with the quality of eggs available. If the merchant is selling ungraded eggs, he must say so in his advertising. If the eggs are some other grade, he must indicate the grade.

ing 3.5 per cent butterfat delivered to the 70-mile zone is \$3.88. This is approximately 8 cents a quart.

The price for October milk is 24 cents above October 1954.

The milk prices were announced today by the Federal Milk Market Administrator's office in Chicago. During October, dairy companies paid around 9 cents a quart for milk used for bottling purposes.

Harry Edwards, head of the marketing department for Pure Milk Association, said that the October

prices may be the high point during the present year. Milk prices generally reach a peak in October or November. He said that there are several indications in the market that point toward lower prices.

Milk production over most of the past year has been decreasing in comparison with the same period a year earlier. In September the total milk production for the Chicago market showed a 3 million pound increase over September 1954. The October figures indicate

that milk production was 13 million pounds over October 1954.

Milk production also reflects a seasonal pattern. Fall months are the lowpoint in production. This year the low point was reached in September. October showed an increase.

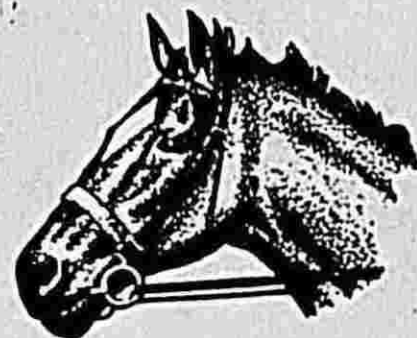

Edwards said that milk production is starting its seasonal increase at a faster rate than last year.

While production has speeded up, the sales of milk continue to show an increase, Edwards said.

PUBLIC SERVICE COMPANY

### T-Men to Furnish Advice Only This Year; Not Service

The 1956 taxpayer assistance program of the Internal Revenue Service in the Chicago Region, during the income tax filing period from January 2 to April 16, 1956, will be aimed primarily at helping taxpayers to help themselves.

This new approach to taxpayer assistance in this region, which includes the States of Illinois, Wisconsin, was announced today by Regional Commissioner, D. L. Olsen, who said it is in conformity with a policy laid down by the Washington office.

The Service will furnish taxpayers advice and information but will not continue the former practice of completely preparing returns.

Taxpayer assistance activities conducted in the Chicago Region during the past filing period expended 471,423 man-hours which resulted in a substantial disruption to normal audit and collection activities. Olsen pointed out that if the above manpower had been used on the examination of income tax returns and in the collection of taxes, it would have resulted in a very substantial increase in revenue.

The Internal Revenue Service will mail with the 1955 Income Tax forms adequate instructional material to cover the problems encountered by the average taxpayer in the preparation of his return. Telephone assistance will be provided by all District offices in the Chicago Region to assist taxpayers with specific problems.

Regional Commissioner Olsen said that returns will be prepared for taxpayers who are physically or mentally unable to prepare their own returns. Other taxpayers who find it difficult to fully prepare their own returns may avail themselves of a self-help assistance method by which desk space and necessary materials will be furnished in order that they may prepare their own returns under the super-

### Castle Rules Ball Machines Gambling

A new-type device which looks like a gum-vending machine, which for a quarter gives the player a slip of paper with slot-machine gambling device in itself and therefore is contraband and subject to seizure the same as a slot machine, Attorney General Castle has held in an official opinion.

A number of such machines have been seized by State Highway Police in raids in Cook county. State Highway Police Superintendent Phil M. Brown requested Castle's opinion as to whether the machines legally are gambling devices.

The machine comprises a glass vision of an Internal Revenue agent instructor.

Olsen pointed out that the Internal Revenue Service plans to conduct an extensive educational program throughout this region to further assist taxpayers in the preparation of their returns.

bowl containing numerous small plastic beads. In a hole in each bead is inserted a slip of paper on which are printed the familiar symbols found on slot machines, consisting of oranges, lemons, plums and bars. The player inserts a quarter in the slot and by tripping a lever secures one of the pellets. He unfolds the paper to learn the combination he has secured.

A slip of paper pasted on the face of the machine bears the words "For amusement only."

"To suggest that the machine is

used for amusement," Castle's opinion advised Brown, "is to imply that persons who have reached a reasonable maturity find amusement in placing a quarter in a machine for which they receive a small plastic bead and a slip of paper. The suggestion is preposterous."

Castle's opinion cited the statute declaring slot and other gambling machines subject to seizure and destruction and which provide exceptions for machines offering no rewards or free games and the operation of which requires some skill

on the part of the player. No skill is required to operate the machine in question, the opinion said.

"The machine under discussion cannot possibly be used for any purpose other than gambling," Castle's opinion said. "It does not even

return an unchewable stick of gum to the player or a trinket for his little daughter's bracelet. The machine does not even offer the attraction to the player of watching the wheels go around in return for his money."

# SOCIETY EVENTS

## Mrs. Robert Berg Will Head Altar and Rosary Society at St. Peters

A slate of officers for the coming year were elected at a meeting of St. Peter's Altar and Rosary Society held at the church hall Monday, December 5. More than forty members were present at the meeting which was a Christmas party as well as the annual meeting.

The new officers were elected after the slate was submitted by Mrs. John Harrison, chairman of the nominating committee. Mrs. Robert Berg was elected president. Other officers who will serve during the coming year are Mrs. Joseph DeStefano, Channel Lake, vice president; Mrs. Ruth Peters, Channel Lake, secretary, and Mrs. Walter Delaney, Antioch, treasurer.

Mrs. Thomas Pechousek, last year's president, read a letter received by the society from Mrs. Peter Joyce, president of the Archdiocesan Council, asking all members to remember the true meaning of Christmas.

A gold sled, gold reindeer, and Santa made a centerpiece for the serving table. Christmas cookies, tea and coffee were served after the meeting.

## Fred Clarke Leading Candidate for N. U.'s Frosh Cage Quintet

EVANSTON—Fred Clarke, former star center on the Antioch Township High school basketball team, is a leading candidate on this year's Northwestern university freshman team.

An all Northwest Conference center on last year's Antioch team, Fred is a 6-foot, 3-inch, 186 pounder. Coach Ray Ragelis hopes to develop Fred into the mold of such Northwestern stars as Frank Ehmann, Hal Grant, and this year's Dick Mast.

One of the few engineering students on the squad, Clarke also played four years of high school football and was a pitcher on the Antioch baseball team.

## WOMEN OF THE MOOSE INITIATE 12 MEMBERS

Nine regular and three home chapter initiates were received into membership in the Women of the Moose at last Thursday's meeting.

The entertainment was by the Ber-Jan students of Round Lake. The Christmas theme was used throughout by the boys and girls.

The next meeting will be on December 15 which will be observed as a Christmas party. Members are to bring exchange gifts with a value between \$1.00 and \$1.50.

The children's party will be on Sunday, Dec. 18 and will be sponsored by the Loyal Order of Moose.

New members are Mesdames Bernice Kolar sponsored by Mildred Gillum; Susan Madison and Beatrice Montone, sponsored by Ruth Bertolani; Margaret Provençal, sponsored by Blanche Horton; Ena Huey, sponsored by May Palmer; Wanda Oftedahl, sponsored by Rose Kennedy; Vivian Doone and Hazel Baysinger, sponsored by Harriet Grewe; Lorraine Cisar and Mary Mieczko, sponsored by Gertrude Good; Isabell Grunor, sponsored by Dorothy Puig; and Joanne Clauser, sponsored by Jo Wohlfeil.

Refreshments were served by Florence Johnson and her Social Service committee.

## B. & P. CLUB HOLDS CHRISTMAS PARTY AT SMART'S COUNTRY HOUSE

The Antioch Business and Professional Woman's club held its Christmas party and meeting with a six thirty dinner at Smart's Country House, Monday evening. Following the dinner a program of Christmas music was presented by Mrs. Irene Francis accompanied at the piano by Mrs. Mabel Dow. Mrs. Wanda Oftedahl, the club's president conducted the meeting. Christmas gifts were exchanged.

## PALMERS TO CELEBRATE GOLDEN WEDDING SUNDAY

Mr. and Mrs. John Palmer of Sylvan Beach road will celebrate their golden wedding anniversary at their home with open house from 2 to 5 p. m. Sunday. Friends of the couple are invited to attend. They were married in Millburn on December 9, 1905 and have been residents of Antioch township ever since.

Mrs. Palmer, the former Agne Sundby, is a native of Norway.

Their children are Leslie Palmer of Antioch and Mrs. Vida Shunnesson of Grass Lake, and Mrs. Phyllis Maaske of Bristol, Wis. There are seven grandchildren.

## GARDEN CLUB PLANS CHRISTMAS PARTY

A Christmas party has been planned by the Garden Section of the Antioch Woman's Club when it meets at 1:30 p. m. Monday, Dec. 12 at the home of Mrs. J. E. Dompke in Morley's subdivision.

There will be a gift exchange and members will bring and discuss Christmas decorations, particularly garden ones.

A son was born Tuesday to Mr. and Mrs. Dewitt Crofoot of Antioch at Victory Memorial hospital.

## Sweetheart of T. K. E.

Sandy Mackenzie of Rock Lake, Wis., was chosen sweetheart of the fraternity of Tau Kappa Epsilon at Lake Forest college, Lake Forest, Ill., where she is a freshman. She was crowned and presented a loving cup by the president of the chapter, Chuck McNeil at a dinner dance at Chevy Chase Country Club, Wheeling, Ill.

The American Legion Auxiliary will hold its annual Christmas party Friday evening, December 16, instead of on the 9th. There will be a gift exchange.

Mrs. Walter Dyer of Walnut Creek, Calif., and Raymond Barker of Minneapolis, Minn., were called to Antioch this week due to the death of their father, Frank Barker. They are the guests of their sister, Mrs. John Lucas and family.

Ela-Vernon Serenade Planned  
Ela-Vernon Township High School music students will serenade population centers of the two townships with carols on the evening of December 15. The band and chorus will go by school bus.

To Erect Sign Poles  
The Chamber of Commerce represented before the village board Tuesday evening by George Borovicka, received permission to erect 25-foot metal poles at the north, south and west edges of the business section on which to suspend signs across the street. They have yet to get permission from the state to place the signs, but they will be for such greetings as Merry Christmas, Welcome to Antioch, and the like. When not bearing suspended signs they will bear flags on special patriotic days.

## Auxiliary News

Work at Downey  
Several members of Antioch Unit, American Legion Auxiliary went to Downey hospital yesterday to help wrap gifts for the veteran patients. Auxiliary members will go to Downey again on Dec. 12.

No Meeting Dec. 9  
The regular meeting of Antioch Unit for Dec. 9 has been postponed until Dec. 16. At this meeting Mrs. Barney Nevelier and Mrs. Albert Sodman will be hostesses and a Christmas party will be the highlight of the evening, with a gift exchange. This will be the only meeting held in December as the regular meeting, Dec. 23, will be omitted.

Veterans Craft  
Have you seen the lovely Veteran made articles, ideal Christmas gifts? Visit Mrs. Dorothy Horan, veteran chairman, at her home and she will gladly show you these veteran-craft articles.

## Christmas Carol Story Told to Antioch Club By Miss Dorothy Posey

Miss Dorothy Posey of the staff of the Telemodel School of Charm and Modeling talked on "The Story of Christmas Carols" at the Antioch Woman's Club on Monday afternoon at the Scout House.

Dressed in a red velvet costume trimmed lavishly in lace, she gave the background of many Christmas traditions and said that most of our carols had been written by clergymen of different denominations. She said that "Hark the Herald Angels Sing" was written by Charles Wesley, author of 6,000 hymns and brother to John Wesley, founder of Methodism.

A widely traveled woman, her closing thought was that after she had made her journeys she more fully realized that we are all children of the same father and that at Christmas time we more fully express that thought as we sing carols without denominational barriers. Mrs. A. H. Kaufmann played carols for her background.

An Advent message was given at the opening of the program by the Rev. L. H. Messersmith of the Millburn Congregational Church.

During the refreshment hour Christmas music was sung by the girls' sextette from the high school which included Carol Sue Barnstable, Lois Wohlfeil, Annabelle Hribar, Barbara Smith, Judie Pyle and Janet Eppers with Gail O'Haver at the piano.

## Public Reminded of Decorations Contest by Moose Men, Women

Mrs. Walter Good of the Antioch lodge of Women of the Moose today reminded Antioch area residents that those who want to enter the Christmas decoration contest must send a postcard to her at Rte. 2, box 441 before December 23, giving name and address so that the judges may judge the display Monday morning, December 26.

In giving the address it is desirable to indicate how the committee can best reach the location.

The prizes, consisting of hand painted china, will be awarded on the next day, Dec. 27.

This is the third year the lodge has conducted the contest. The purpose is to encourage people to decorate the exterior of their houses for the holidays. Each year some new or novel way of lighting or decorating is found.

The Altar and Rosary Society of the Prince of Peace church at Lake Villa will hold its monthly meeting and Christmas party at Grace Waldeck Venetian Manor Convalescent Home, Grand Avenue, Monday, December 12 at 8 p. m. Mrs. Myra Houghton is general chairman for the evening.

Adjust your driving to road conditions. Remember, traveling at a slower speed reduces the distance your car needs to come to a halt. Now many stores are open evenings for the Christmas rush, and drivers should be extra alert when driving through business districts.

for your appointment

416 Orchard St.

Antioch, Ill.

The Chicago Motor Club warns winter drivers to be on the alert for icy patches on the road. If your car goes into a skid, turn your steering wheel in the direction of the skid and gently "snub" your brakes. "Snubbing" is applying the brakes lightly and releasing them quickly several times.

In winter highway warning signs often become covered with ice and

snow, so learn to recognize them by their shapes. Octagonal signs mean stop; diamond-shaped signs mean caution; rectangular signs give instruction.

The reddest face in the Midwest belongs to an Iowa cop who tagged an illegally parked car for three violations before he realized it was his own.

## SAFETY FIRST

## Football Vitamins And Colored Socks For Sore Toesies

CHICAGO—Doctors who answer questions for other doctors often tangle with such knotty problems as: Should football players be given extra vitamins; are colored socks bad for sore feet, and what can be done with a four-year-old who refuses food?

The consultants recently came up with the following answers:

All "mass medicine," including vitamins and iron in daily doses, is bad medicine for athletes. The consultant quoted a resolution by a joint committee from the National Education Association and the American Medical Association. It disapproved medicine or oxygen administration because players begin to expect it, and are encouraged to exert themselves beyond the limits they have learned "from instinct and experience."

About colored socks: a consultant said wearing them while suffering open foot sores "involves no common peril." Wearing white socks—a common recommendation for infections or other sores—is probably not necessary. Sometimes colored socks cause trouble, but only because of an allergy to dye or yarn.

The four-year-old child who won't eat unless her parents feed her just needs to make "a new start in life," another consultant said. He recommended giving "a complete change" at mealtime—a new place to eat, different dishes, and even different people to serve her.

## Mayflower Will Resail Ocean Blue

WASHINGTON — Shades of our ancestors. The Mayflower will resail the pilgrim voyage.

Hewn from stout English oak, a new Mayflower is taking shape in a British shipyard. In July they laid her on the keel. Next July, if all goes well, the second Mayflower will set sail on a two-month crossing to the "stern and rock-bound coast" of New England. Its crew and passengers, many of them descendants of Mayflower passengers, will land in garb of the Puritans of 1620.

Gesture of friendship to the United States, the project is financed entirely by voluntary contributions in Britain. Long research by historians on both sides of the Atlantic guides the work.

Little is known of one of the most famous ships ever to sail the Atlantic. No precise records, specifications, or descriptions survive, nor any known painting or sketch of the "fine ship," as Puritan dean Robert Cushman described the Mayflower.

Christopher Jones was her master, a native of Rotherhithe beside London's Thames. She was likely a 180-ton vessel, fair size for her day, broad-waisted, with high superstructures or "castles" fore and aft.

## Nail Polish Sealer For Fungal Infection

CHICAGO—A Miami physician has finally outdone the proverbial female who fixes everything with a hairpin or a little nail polish.

Dr. Hollis F. Garrard has reported that he has successfully used nail polish sealer in treating a fungal infection of the fingers and nails.

He said the sealer acts as an "artificial cuticle" and keeps water and foreign material from getting under the loose skin around the nail. The sealer is applied to the nail and nail fold in the morning and left on until bedtime when it is removed and another medication applied.

Dr. Garrard has used the method on 59 patients with monilial paronychia.

## Tavern Owner Must Protect His Patrons

BOSTON—A tavern owner must also be a referee, apparently.

A Massachusetts Supreme Court justice has ruled that a tavern owner is responsible for the safety of a customer who gets involved in a fight resulting from a television program.

Justice Harold P. Williams upheld a lower court award of \$3,000 to Pasquale Greco, Boston.

Greco had called upon a bolsterous fellow-patron at Sumner Tavern to be quiet during a television program.

The man broke Greco's leg in the ensuing battle. Justice Williams said the tavern owner should have exercised reasonable care for Greco's safety.

## No Comparison

NEW YORK—A group of visiting Russian journalists took in a New York automat and made history by observing that similar restaurants at home "are not so good as this." They admired the food-and-drink dispensing machines and then lined up at the steam table for a hot lunch and milk.

## Frank Barker, 87, Dies Following Brief Illness

Frank Barker, 87, of 687 North Main street, died Saturday at Victory Memorial hospital following a brief illness.

Mr. Barker came to Antioch ten years ago after retiring as a maintenance engineer for the village of Oak Park, where he lived. His wife, Harriet preceded him in death in 1948.

Survivors are four daughters, Mrs. John Lucas of Antioch, with whom Mr. Barker was making his home, Mrs. Helen Kays, Seattle, Wash., Mrs. Naomi Dyer of Walnut Creek, Calif., and Mrs. Ruth Bell of Nokomis, Fla., and a son, Raymond of Minneapolis, Minn., and five grandchildren and one great-grandchild.

Funeral services were held at 1 p. m. at the Haggard Funeral home in Oak Park with interment at Mount Emblem Cemetery in Elmhurst.

## Therese B. Culbertson, 83, Dies After Long Illness

Mrs. Therese B. Culbertson, 83, of Indian Point, Antioch, died Friday, December 2 at her home following five years of illness.

Mrs. Culbertson was born October 18, 1872 at Ottawa, Ontario, Canada. She came to Chicago at the age of eighteen years and lived there until coming to Antioch in 1924. She was a member of Antioch Chapter Order of Eastern Star No. 428.

Survivors are her husband, James R. Culbertson and a daughter, Mrs. Mary McGlade of Chicago; three brothers, John Blake, Cleveland, Ohio, Michael and Philip Blake, both of Ottawa, Ontario, Canada.

Funeral services were held at 1:30 Monday at the Strang funeral home. The Rev. Edmond Hood of St. Ignace Episcopal church officiated at the service. Interment was in Grass Lake cemetery.

## --BOWLING--

### Major Gutter Ball Girls

Tuesday, December 6

Blum's took high team series with games of 685-780-712—2177 total. Jean Tegelman was high individual scorer with games of 220-177-122 for a total of 519.

Fortmann D-X beat Antioch Lauderette all 3 games.

Red Arrow took 2 games from Taylor's Shoe Store.

### Steel Oil Drums Beat Out the Music Of the West Indies

Steel drums are being used to sound out the intricate rhythms and melodies of West Indian music, according to American Iron and Steel Institute, today. The oil drums—painstakingly "tuned" are the sole instruments used by entire bands in Trinidad and some of the other islands.

The musical steel drums are called pans. They are made by the musicians. The end of the drum is made concave by beating on it with a log. Then the musician taps the pan with a rubber-wrapped mallet to discover the location where different tones can be produced. When found, these areas are marked off with a nail punch. The pan is then heated so that each tone area can be forced up into a mound or bump.

In an "orchestra" there may be several pans with many note-bumps for playing the melody; others with fewer bumps comprise the harmony section; a series of whole drums may carry the bass. However, most pans are made by cutting the end off a drum and using a half or a quarter of it.

### Lake Villa

Mrs. C. B. Hamlin, Correspondent  
Tel. Eliot 6-3344

The Official Board of the Community church will meet at the church for a business meeting on Monday, Dec. 12 at 8 p. m.

Circle No. 2 of Woman's Society of Christian Service will also meet on Monday evening, Dec. 12 with Mrs. Thomas Mellen at Lindenhurst.

Combined Circles No. 1 and 2 of W. S. C. S. will hold a joint meeting at the church on Wednesday evening, Dec. 14 and a number of neighboring church societies are invited. There will be special music and a speaker. Mrs. Lau, Mrs. Connell and Mrs. Hooper are the committee on refreshment.

The annual Christmas party of the church school will be held at the church on Sunday evening, Dec. 18 and the pupils of the school will present a Christmas program at 7:30 p. m., and all are welcome.

On Sunday, Dec. 25, Rev. Plummer and the choir will bring the Christmas message at 11 a. m. and a special service will be held on Christmas eve at the church.

Rev. Plummer was guest minister at the special services held at West Pullman last week, and on Thursday Mrs. Plummer and David joined him for the services on Thursday and Friday evenings. They returned home on Friday night.

Guest night of the combined W. S. C. S. circles on Dec. 14 will have Rev. and Mrs. Plummer conducting a devotional service and Mrs. Eva Alling of Waukegan, Dist. President of Wesleyan Service Guild as speaker.

Lake Villa V. F. W. Auxiliary met at the fire station on Monday evening and enjoyed a pot luck dinner together. Following a short business meeting a Christmas party was held with exchange of gifts.

Eight year old George Grenus has returned home after a four weeks stay at Condell hospital following surgery for a ruptured appendix and is doing nicely.

Mrs. Fred Seefeldt spent last week with her daughter, Mrs. Harley Hall at Belvidere, Ill.

Mr. and Mrs. Richard Seefeldt of Lake Geneva were visitors at the Frank Grenus home last Sunday.

Mr. and Mrs. Melvin Umenhofer, Jr., of Petite Lake Park welcomed a 7 pound, 2 ounce daughter, Joy Ann Marie on Dec. 1., to join her parents and three brothers at their home.

Mrs. Lulu Nelson, Mrs. Marie

Hamlin, Mrs. Lullie Boehm, Mrs. Mayme Kapple and Mrs. Cora Hamlin were luncheon guests of Mrs. Georgia Avery at her home at Cedar Lake last Thursday afternoon in honor of Mrs. Nelson, a former member of the group who has been visiting at the home of her daughter, Mrs. Carl Ekdahl and family for the past month. She left this week to return to her home at Lawrenceville, Ill.

Mrs. Paul Avery, Jr., was a Chicago visitor last week.

Cedar Lake Camp Royal Neighbors will hold its next regular meeting on Tuesday evening, Dec. 13 at the village hall. Pot luck supper at 6:30 and the regular meeting will follow at 8 p. m. for election of the officers and other business. To finish the evening, a Christmas party will be held with exchange of gifts to be worth a dollar. Members please take notice.

The Lake Villa Community Men's club met at the school gym on Tuesday evening, Dec. 6, and Circle No. 1 of Woman's Society of Christian Service served the ham dinner.

Mr. and Mrs. Ronald Nickerson who have been living near Antioch have moved into the apartment above the Effinger store recently vacated by Mr. and Mrs. Gus Hines.

who now occupy the apartment at the fire station.

Ray's Shell Station won 2 games from Dick's Tree Service.

### Tavern League Monday, Dec. 5

Games of 813-879-891-2583 gave Bud's Tavern high team series. Joe Sterbenz, Jr., was high individual scorer, having games of 198-190-208-592 total.

Thompson's beat Joe & Helen's

## Census Bureau to Expand Current Population Survey

An expansion in the Current Population Survey, designed to improve Federal statistics on employment and unemployment, was announced today by Supervisor Dayton F. Jorgenson of the Census Bureau's district office at Chicago, which participates in the survey.

The expansion of the Current Population Survey, which has been conducted on a sample basis by the Census Bureau for more than a decade, will involve both an increase in the number of households which are interviewed each month and an enlargement in the number of sample areas covered by Census enumerators. The expansion will be a gradual one, being spread over a four month period beginning in December and continuing through March. This is being done in order to provide ample time to train new interviewers and to observe their efficiency in practice enumerations as well as applying rigid tests to the sample data they collect.

The supervisor pointed out that the Current Population Survey is authorized by law. This law provides that all information about individuals be kept in strict confidence and that only statistical totals be published. Information obtained in the Current Population Survey cannot be used for taxation, investigation or regulation.

all three games.

Pasadena won 2 from Smart's. Bud's took 3 from Red Arrow. Tarfu won all 3 from Slide Inn. Kapella won 2 from Coles. Kempf's won all 3 from Recreation.

# Gas Mileage goes up **AGAIN**

## And so does the thrill - with Buick's new Variable Pitch Dynaflo!

WITH ALL the big excitement of Buick's 1956 styling and power and ride and handling—it's easy to overlook this fact:

Gas mileage in the '56 Buicks takes a big step upward.

One reason, of course, is the new power plant itself.

Every new Buick cradles an advanced 322-cubic-inch V8 engine with the highest horsepower, Series for Series, in all Buick history. Yet every engine delivers more efficiency, and more usable power to the rear wheels—because each one has a new double "Y" manifold, and a new high in compression ratio.

But the major reason for the happy news in gas mileage—and for the new step-up in safety and thrills—is Buick's latest version of Variable Pitch Dynaflo.

In this airplane-principled transmission, you always had a

gas-saving cruising range—and, at a switch of the pitch, a full-power getaway range.

Now Buick engineers have brought to this cruising range what they call "double regeneration." It simply means a new way to make flowing oil add to its own velocity to build up driving force.

So now, you merely nudge the pedal to part throttle and get new breakaway getaway. And since you get this quicker, safer response in your normal cruising range—where you don't use full power—you get plenty more miles from every tankful of gas.

But when you do need sudden safety-surge for emergencies, you just floor the pedal to switch the pitch. Instantly, you're at full-power acceleration—and it's the most thrilling safety measure in the land.

How about coming in to try the most modern transmission yet?

The absolute smoothness of this new Dynaflo is worth a visit in itself. So you can be sure you're in for a wealth of wonderful surprises—for that's just the start of the best Buick yet. Can you make it this week?

\*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

See the exquisite mountings created for us by the nation's top designers and master craftsmen—using your own diamonds. Modest prices well within even a limited budget.

Fox Lake, Illinois

## English Sailor Set Mark for Marathon Walkers

WASHINGTON—It wouldn't be to surprising if it happened in this day and age, but there is an often discredited story about an early English sailor who took a 3,000-mile walk from Mexico's Gulf coast to a point near what is now Saint John, New Brunswick, in Canada.

History shows that sometime late in 1588 more than 100 English seamen of the adventurer Sir John Hawkins went ashore near what is now Tampico, rather than starve at sea. A disastrous battle with the Spanish had left Hawkins' ship overloaded and short of food.

Only five of these men ever got back to England. One group of 75 men headed south and only two of this number eventually escaped from Spanish servitude. One after 14 years, the other after 23 years.

Three others, David Ingram, Richard Browne and Richard Twide, were among a smaller group of men who set out "northward." Most were killed by Indians or hardships. But 11 months later, Ingram related, three of them had reached a river mouth 60 leagues west of "Cape Britton"—Cape Breton Island, Nova Scotia. There they found a ship, the French "Gargarine." By 1590 they were back in England.

There has been much controversy over whether Ingram really walked as far north as Saint John, but attempts have been made to prove that he and his companions must have crossed New England to describe the things Ingram related 13 years after their "long walk". It was not the first overland walk in America.

## Homicide Rate At All-Time Low

NEW YORK — Despite reported increases in major crimes and juvenile delinquency, the homicide rate in the United States has fallen to an all-time low level, insurance company's statisticians report.

Among one company's industrial policyholders, whose experience closely parallels that of the country's general population, the homicide death rate dropped from 5.8 per 100,000 in 1934 to 1.9 in 1954. This downward trend was interrupted only twice during the twenty-year period—immediately after World War II, and to a lesser extent during the Korean War.

The long-term reduction in the homicide rate has been especially large among white male policyholders, amounting to 70 per cent over the two decades. Among white females the corresponding reduction was 50 per cent and among nonwhite persons it was about 55 per cent.

Despite the over-all improvement, homicide continues to be a major cause of death among nonwhite males. In the insurance experience homicide mortality among nonwhite males averaged 21.7 per 100,000 in 1952-54, or more than 11 times the rate for white males.

## Detroit Teachers Use 'Punishment Code'

DETROIT—Public school teachers in Detroit can paddle junior where it hurts when he gets out of line.

In a 500-word policy statement, Superintendent of Schools Arthur Dondineau outlined a physical-punishment discipline code to be used with discretion as to "size, sex, and physical strength."

However, Dondineau said that any punishment given must not be such as to cause "lasting pain or injury."

Explaining the reason for the policy statement, Dondineau said: "We wanted to give teachers and principals an understanding as to how far they can expect the support of the administration in punishment problems. Now we think the teacher knows how far he will be protected if a complaint were made in court of his actions."

## Sex Equality Gets Blame for Divorces

LONDON—A leading marriage counselor blames the growing equality of sexes for Britain's booming divorce rate, now about four times the 1939 level.

"It has really shaken the stability of marriage and family life," said Joseph Brayshaw, in the magazine Family Doctor.

"Women now do almost every job that men do. The plain truth is that the modern marriage partnership is much richer. It involves much greater tolerance. And in aiming higher in marriage today, we are suffering more casualties."

## Time's Up

LONDON—British men who have waited impatiently outside telephone booths while women talked on and on for a three penny call, have new hope these days.

The post office says new coin boxes to be installed will make it possible to limit the time of local calls.

## Stork Deliveries To Hospitals Are On Great Upswing

New York—If you're a prospective parent, you'll welcome the news that more and more children are being born in hospitals.

In the past few years the number has exceeded 3,500,000 annually; in 1952, the last year for which official data are available, about 3,530,000 or better than 9 out of every 10 births were delivered in hospitals, and there is definite evidence that the proportion has risen appreciably since then. The proportion of hospitalized births in the white population increased from 59.9 to 95.7 per cent between 1940 and 1952, and among the non-whites from 26.7 to 66.4 per cent.

A percentage-wise gain in hospitalized confinements is evident throughout the country, and is especially noteworthy in areas which in the past had the lowest proportion of hospital deliveries. Thus, in the white population of Kentucky the proportion rose from 18.7 to 80.4 per cent between 1940 and 1952; in West Virginia the rise was from 20.2 to 83.2 per cent; and in Arkansas from 21.5 to 88.1 per cent.

Geographic differences in the proportion of hospitalized births have narrowed a great deal, but there is still appreciable variation from one state to another, particularly for the nonwhite population.

## Mistletoe, Traps Catch Wild Deer

HOPLAND, Calif.—Mistletoe and rat traps are helping University of California researchers study deer-sheep relationships at the range research station in Mendocino County.

Mistletoe is used to bait traps to catch deer for two studies. Rat traps are part of the trapping mechanism devised to catch the deer.

Some of the deer are turned into pastures with sheep to study grazing competition and parasites common to both groups of animals. Other deer are earmarked—a few are also belled—to trace their movements on the natural range for more information on how far they wander for food and how long they live.

New types of traps are used. One is a small individual trap made of a pipe frame covered with tuna netting. The other is a larger, corral type made of a series of 8x8 board panels.

During July, August, and early September 78 deer were caught. Fifteen of them were retraps. One doe was caught five times, another three times. Two marked bucks have been taken by hunters.

## Like All Else—Price Of Brides Higher

WASHINGTON—The rising price of brides in the far corners of the world is turning young men's fancy into financial complications.

In Eastern Nigeria, says the National Geographic Society, buying a bride has become so expensive that a government committee proposes price control and rationing. Fifty years ago a tall comely 160 girl might cost \$50, and an ugly maid only three goats. Now a \$300 bride is a bargain.

In West Pakistan, soaring abductions of 13- to 16-year-old girls are blamed on high parental price tags. Suitors unable to pay resort to kidnapping.

Among many remote tribes, the bride price can be the biggest outlay of a man's life. Through the Bismarck Archipelago it may come to 15 to 200 strings of shell money. In Samoa it includes canoes and pigs.

A Basikuma swain, in the territory southeast of Lake Victoria, pays a first installment of 60 sheep. Then he must work for his bride's father for two years. A Banyoro pays with cattle as fast as he can, but any children born in the meantime belong to the father-in-law until each is paid for separately with a cow.

## Wrong Beam Almost Brings Air Visitor

KNOXVILLE—An Air Force pilot's complaint that he almost landed on the apron of a filling station brought city police to the grand opening of a new North Broadway service station.

The pilot complained that he mistook the searchlight's beam for a ceiling light at McGhee Tyson Air Force Base.

Ordered to put out the light, the station owner quickly obliged. "That's OK," he said, "I had more business than I could take care of anyway."

## Top Salesman

RICHMOND, Va.—George A. Nash, Jr., has had two auto accidents in recent years. Both times Nash sold insurance policies to drivers of cars in collisions with him.

Who paid for the accidents? Insurance companies, Nash's automobile is fully covered.

## Wilmot High Holds Its Annual Football Feast; Tom Bienemann Speaks

Tom Bienemann, a member of the Chicago Cardinal football team was the guest speaker at the annual football banquet of Wilmot High school held last evening at the school. There were reservations for 115 diners.

The school received its conference championship trophy and the players their championship medals.

Bienemann, a native of Kenosha, graduate from Drake university and was a teammate of one of the Wilmot assistant coaches while there. He replaced Pat Harder, who is in New York and was unable to attend.

The football squad has elected

Dick Bruening, a junior guard as captain-elect for next year. He was a second-team all-Southern Lakes selection this fall.

**Wilmot High Undeclared**  
Wilmot High school's basketball team continued its winning ways this week by defeating Central 75 to 57.

In earlier games Wilmot defeated Whitewater, Mukwonago, and East Troy. It will play Whitewater Friday.

Mr. and Mrs. H. D. Bell of Grass Lake road left Antioch Tuesday for New Smyrna, Florida, where they plan to spend the winter.

Frank Bolin of Antioch is a medical patient at Victory Memorial hospital, Waukegan.

## Venetian Village Mother Disappeared for 10 Days

A Venetian Village wife and mother of three young children disappeared about 10 days ago but was located working in another part of the county by State's Attorney Robert Nelson.

She is Mrs. Patricia (Quinn) Wilson, 23, wife of Leonard Wilson, a Waukegan auto parts company em-

ployee. Mrs. Wilson is the mother of 10-month-old twins, and a three-month-old who has been hospitalized with a respiratory infection.

Mrs. Wilson went to the home of her mother, Mrs. Mildred Collins at Highland Park for a short visit and told her mother she was returning home. She never arrived there. She took no extra clothing with her.

## Doirama Portrays Life Among Early Indian Communities

CHICAGO—Life as it was lived centuries ago in villages of prehistoric Indians of the Southwest is vividly portrayed in three miniature dioramas at Chicago Natural History Museum. They show three different prehistoric periods, and three different southwestern environments. The groups were prepared by Alfred Lee Rowell, dioramist in the department of anthropology, who has been engaged in the task for two years.

The first diorama shows part of a pit-house village of the Mogollon Indians who lived in the mountainous area of New Mexico and Arizona. The time represented is between 200 B.C. and A.D. 500, but museum archaeologists have traced Mogollon culture back about 4,500 years.

The second diorama shows part of a Hohokam village known as Snaketown in the desert near Phoenix, Ariz., as it must have looked about A.D. 950. The Hohokam Indians were farmers who constructed a network of irrigation canals in order to raise crops in the desert area of southern Arizona.

The third diorama is a model of Pueblo Bonito, an Anasazi village in Chaco Canyon, N.M. The time depicted is about A.D. 1100. The Anasazi Anasazi were the Pueblo farmers of the plateau areas of northern New Mexico, and Arizona, southeastern Utah, and southwestern Colorado. Pueblo Bonito was the largest "apartment house" in the Southwest.

## US-USSR Economic Potential Compared

LOS ANGELES — Russia's economic potential in 1960 will be roughly the same as that attained by the United States in 1929.

This is the considered judgement of Dr. Dudley F. Pegrum, professor of economics on the Los Angeles campus of the University of California, who recently prepared a comprehensive analysis of the economies of the United States and the Soviet Union for the Lockheed Aircraft Corporation.

In his analysis, Dr. Pegrum carefully compared relative strengths of the two countries in fuel and power supplies, metals, agriculture, railroads, labor and military production.

He concluded that the maximum economic strength of the U.S.S.R.

in the event of an all-out war in 1960 would be one third of that which could be mustered by the United States.

"This does not mean that the might of the Soviet Union should be underestimated," he adds. "A potential output of \$50 billion dollars for war effort on the part of Russia in 1960 represents enormous power. It is more than that which any other country except the United States has a prospect of matching by 1960."

## Noisy Shrimp Give Radar Rough Times

SAN DIEGO—The Pacific Ocean off San Diego has one of the noisiest sea channels in the world and the lowly shrimp is the great noise-maker, says Dr. Franz Kurie, technical director of the Naval Electronics Laboratory.

Kurie says the noise is caused by enormous numbers of shrimp snapping their claws.

Noise caused by sea creatures becomes so loud at times that submarines can use it to evade detection by electronic equipment being used by surface ships.

Dr. Kurie says that a permanent deep sound channel has been discovered in the Atlantic Ocean where conditions are right for sound transmission across extraordinarily great distances.

In one experiment, a sound was transmitted from Dakar, in Africa to the Bahamas Islands on this side of the Atlantic Ocean.

## 'Taxi' Ride Turns Out to Be 'Free'

ROBINSON, Ill.—The family car was in a garage for repairs, so Lab Russell told his wife to take a taxi to work.

Mrs. Russell, nearly late, phoned for a cab. A few moments later a car turned into her driveway. Mrs. Russell rushed out, got in and told the driver where she wanted to go.

On arrival, she asked how much she owed for the ride.

"Lady, you don't owe me anything," the driver said. "I was just turning around in your driveway."

## Help Mayor

YORK, Neb.—Mayor Lloyd O. Livingston was in a spot before compassionate City councilmen voted him out of it.

Livingston had workmen build a foundation for his house in the city—then discovered that the contractor used a short ruler.

The completed foundation was a foot nearer the curb than the law allowed, and a special action by the council was needed to legalize it.

Mr. Floyd Clymer

**"Best car manufactured in America today"**

That's what Floyd Clymer, famous automobile authority, said about Chrysler in Popular Mechanics (October)

"I have tested many fine automobiles over all kinds of terrain," writes Mr. Clymer, "and in my judgment Chrysler is the best automobile manufactured in America today."

When you compare this Chrysler with the other two major cars in its price class, you will be in for an electrifying awakening. Because this is power driving as it was meant to be.

You push the "D" on the Pushbutton PowerFlite Drive and a mighty airplane-type engine whisks you away in an instant. There's a new, wonderfully easy feel-of-the-road with full-time PowerPilot Steering . . . a straight, sure, velvety sense of safety in the stops you get with PowerSmooth Brakes . . . a world of authority in the tremendous response of Chrysler's exclusive airplane-type Fire-Power V-8 engine!

Just one look at this car tells you the power's there. You see it in the flaring "PowerStyle" lines . . . in the flight-swept look of its rear deck and fenders. Let us put you behind the wheel of the "PowerStyle" Chrysler for just 15 minutes this week. Compare its all-around performance with its two price competitors. Then you'll know why "the best car manufactured in America" is your best buy! Come in or call us today!

**VFW Aux. Entertains  
Downey Patients Sun.**

One hundred forty-five patients at Downey hospital were entertained Sunday afternoon, Dec. 4, by members of the Sequoia post VFW auxiliary under the direction of the hospital chairman, Lucille Fortmann.

Grace Timmersman, talented musician, entertained the patients with a good many numbers, old and new, played on the Solovox, and Misses Tammy Cary and Helen Haeussell were well received with a specialty dance number.

Refreshments and cigarettes were served by a committee composed of Grace Kersten, Dottie Koenig, Jean Mueller, Lydia Edwards, Kate Verkest, Tammy Cary, Helen Haeussell and Chairman Lucille Fortmann.

Next meeting of the organization will be held this evening (Thursday) at the home of Lucille Fortmann for the purpose of wrapping packages for delivery to the Eton Rapids VFW home. Gifts are for children of 12 to 16 years of age.

**Winn Appointed Member  
Of Dairy Science Com.**

Walter E. Winn, Richmond, Ill., dairy farmer has been named a member of the five-man dairy science advisory committee to the University of Illinois, College of Agri-

culture. Dean Louis B. Howard recently announced the position.

Winn will also serve on the general advisory committee as the representative of the dairy science committee. The general advisory committee is made up of one man from each of seven agricultural advisory committees.

Winn is president of Pure Milk Association, a cooperative of 15,000 dairy farmer members who supply Grade A fluid milk for Chicago and surrounding markets.

Winn was guest speaker before the Antioch Lions club at a meeting last week, explaining the mechanics of dairy marketing proceedings.

**Spaghetti Dinner of  
PTA Attracts Record  
Attendance Saturday**

Inclement weather Saturday evening did not deter attendance at the spaghetti dinner sponsored by the Grade PTA. More than 400 enjoyed the dinner which was served by a committee headed by Mrs. Lyle Rogers. Others on the committee included Mesdames Glen Pierce, Lee Ipsen, Wes Gillum, and Norman Jedele.

Mrs. Arthur Meierdick was in charge of dessert and coffee, and several of the grade children assisted in handling the large crowd. Mrs. Raymond Lalor was general chairman for the meeting.

Booths in the gym provided amusement for the children. Mrs. Robert Mortensen, Mrs. Bernie Thompson, Mrs. Frank Wegner, and Mrs. Wolf Troyke comprised the committee.

The Chicago Motor Club says the cleverest swindler of the week was the glib fellow in Oklahoma City who sold parking spaces at 50 cents per hour in the police parking lot.

A phantom traffic cop roamed the streets of Salisbury, Rhode Island, recently. A local police station was flooded with citizens waving tickets signed by the phantom officer. It seems a traffic policeman lost a book of tickets and the book's finder had great fun filling out the tickets and distributing them.

Judges have to listen to some flimsy excuses from prospective jurors who wish to be excused, but here's a very valid one. Recently, a Pontiac, Illinois man who was served a summons to appear on a jury in a drunk driving case nearly flooded the judge when he said, "I can't take the job, I'm the defendant."

**Card of Thanks**

We wish to thank all of our neighbors and friends for their many acts of kindness and sympathy shown during our recent bereavement.

**Canadian Newsprint Output  
At Record Level**

Photo: Canadian National Railways

A small mountain of pulp at one of the big mills in the Lac St. John region of Quebec Province is waiting to be transformed into newsprint for some Sunday supplement.

WITH record consumption of newsprint by newspapers in the United States which recently resulted in a scarcity, Canada, which supplies half of the entire world's newsprint requirements, is striving hard to meet ever-increasing demands for the life blood of the printed word.

American newspaper publishers pay about \$780,000,000 for their paper supplies and Canada furnishes nearly 80 percent of the U. S. demand. In addition, demand for Canadian newsprint from European countries is increasing and Canada is being called on to supply more newsprint to Australia, New Zealand, Central America, the West Indies and South Africa.

## People Spent More And Saved Less, 1954 Records Show

NEW YORK—The American people had \$107 billions left from their aggregate income in 1954 for discretionary spending or saving as they preferred after laying out a record \$148 billions for the basics of food, shelter and clothing, and paying a \$33 billion tab to the tax collector—Federal, State and local combined.

This discretionary income at the people's disposal in 1954 was the equivalent of some \$600 for every man, woman, and child in the population and was greater than the total personal income in any year prior to 1942.

Out of this sum the people made a substantial addition to their "nest egg" in insurance and other savings. Figures compiled by the U.S. Department of Commerce show that total personal savings in 1954 exceeded \$18 billions, a comparatively high level by past standards. However, the temptation to spend when income is rising and growing competition for the consumer dollar were reflected in the fact that 1954's personal savings were \$1½ billions under the 1953 total, and that savings continued to decline and personal debt rose further in the first half of 1955.

The people also spent a half billion dollars more than ever before last year for medical care, indicating the increasing emphasis being given to health in the family expenditure pattern.

## Navy Wins Fight With Barnacles

WASHINGTON—The United States is finally winning its toughest engagement—a long-time battle against hitch-hiking barnacles. No longer need these tight-sticking crustaceans crowd their shells onto hulls of Navy ships, causing loss in speed and boosting fuel consumption.

Government researchers have developed a plastic paint deadly to young barnacles and other marine growths. A plastic-coated warship can now churn the seas for five years without drydocking for cleaning and repainting.

Before World War II, Navy vessels docked every nine months for this purpose. Some heavily fouled ships carried 200 tons of sea life on their hulls.

Two thousand different kinds of life, ranging from bacteria to fish, have been detected on hulls, buoys and marine structures. Barnacles are the most pestiferous of the lot. Even after they die, their shells often remain on a ship's hull.

For many centuries seafarers have tried to rid their vessels of barnacles. Copper sheathing was successful on wooden ships, for even minute quantities of copper in the water kills young barnacles.

## Single Donor's Gift Sets Up New Institute

BERKELEY, Calif.—A new institute devoted to basic research has been established by the University of California and will start operations with a fund of almost \$2,750,000, the gift of a single secret donor.

Chancellor Clark Kerr announced the new institute—similar to one at Princeton, N.J., where Einstein studied many years—in opening a three-day symposium on the physical sciences.

The institute's primary purpose, as specified by the donor, will be "to discover and encourage the work of individuals of great talent and promise." It "shall be dedicated to the encouragement of creative thought and conduct of research and investigation in pure science."

## Dog's Life in L. A. Really Dog's Life

LOS ANGELES—The old joke about "a dog's life" gets no laugh in Los Angeles.

All dogs in the city and county were ordered quarantined by the City health officer for at least a year because of the rabies situation. Between January and October, there were 67 rabid-dog reports, most in 10 years. The order requires dogs be confined to owner's premises except when on a leash not more than 5 feet long.

On top of that, Mrs. Sally Moody urged a new law requiring marriage licenses for canines. Her ordinance would make it a misdemeanor "to breed a female dog or to permit an owned female dog to be bred without first obtaining a license or permit to do so from the City or County."

## Courtesy Pays

CAMDEN, S.C.—Courtesy pays off on the highway.

F. B. Mobley noticed in his rear view mirror that an automobile wanted to pass. He slowed down and waved the driver behind to come ahead.

As the car passed, Mobley noticed two pieces of paper fall out of the window. Curious, he stopped, got out and picked them up. They were two \$1 bills.

## Gas Consumption Record Broken Twice in Week

Northern Illinois Gas Company's send-out records were broken on successive days during last week's cold wave. The previous high of 355,173,000 cubic feet of gas, established last January 27, first was eclipsed November 26 when the maximum use reached 361,000,000 cubic feet, and then again the following day (Nov. 29) as the company's maximum noon-to-noon send-out totaled approximately 369,300,000 cubic feet.

Marvin Chandler, president of Northern Illinois Gas, said it was necessary to augment the company's pipeline supply and other peak shaving operations with about 33,500,000 cubic feet of natural gas from the Herscher underground storage field during the first 24-hour period and approximately 34,500,000 cubic feet the second.

Chandler stated that the chief factor responsible for establishing the new maximum send-out records was the connection of nearly 29,000 additional residential space heating customers to the company's system during the past 12 months. The demand for gas for space heating, he said, comes not only from existing homes in the company's territory but from the approximately 35,000 new homes built within the last year.

## Hints on Mailing of Christmas Packages

Check these do's and don'ts before you go to the postoffice with your Christmas packages.

The post office says you cannot label a package "Rush" or "Do Not Delay" unless you pay a fee for special handling or special delivery. Nor can you, in most large post-offices, mail a package of more than 40 pounds or 72 inches in girth. As a general rule, the best advice is not to wrap a package of more than 35 pounds in weight.

You should print your own address and the address to which you are sending the package. You can label it "Do Not Open 'Til Christmas," "Perishable," or "Glass." You can enclose a Christmas greeting.

And you can speed the package in three ways, by special handling, special delivery, and air express or air parcel post. Special handling is cheaper than special delivery, and does not include special delivery messenger service.

There are 66 countries, including the United States, which have Junior Red Cross organizations, totaling more than 45,000,000 members.

Since 1950, more than 650,000 men and women in 14 countries on three continents have received Red Cross

home nursing training, under a program launched by the League of Red Cross Societies.

In 1954 the American Red Cross issued 903,100 certificates to persons completing Red Cross swimming instruction training.

Students in more than 700 colleges and universities throughout the country participate in Red Cross activities, including first aid, water safety, and home nursing training, and volunteer service to Veterans Administration hospitals.

## This Chevrolet keeps a secret...beautifully!

The "One-Fifty" 2-door sedan—one of 4 models in Chevrolet's smart and sprightly "One-Fifty" series.

It's one of Chevrolet's New "ONE-FIFTY" series... the lowest priced

of all the high-priced-looking Chevrolet series

for '56. But you'd never know it to look at that speedline chrome

treatment or to feel that new power ranging up to 205 H.P.

There's so much fresh new styling in the "One-Fifty" it's hard to believe the car costs so little. It has new chrome—including both windshield and back window reveals—and its own distinctive two-toning. It stretches long and clean from grille to taillights (the left one hides the gas cap). It offers new power, V8 or 6, steering and handling ease few cars can match, plus all

of Chevrolet's great performance and safety features. Directional signals and safety door locks are standard equipment. Seat belts, with or without shoulder harnesses, and instrument panel padding are available at extra cost. Truly, the "One-Fifty" represents more quality than before. Come in soon and let us tell you its big secret—its low price tag!

**DRIVE CHEVROLET, Inc.**

Phone 56 — Antioch, Illinois

### Clothing Drive Is in Progress at Salem Cen. High School This Week

This week, Dec. 2 to 9, students of Salem Central high school are busy collecting articles of clothing under the direction of the F. H. A. club at the school. The clothing will be mended, cleaned and packed ready for shipment to needy persons all over the world.

Types of clothing most needed, according to the sponsors are sweaters, shirts, pants, and other articles of clothing.

The clothing collected will be sent abroad to Korea, Algeria, France, Holland, Austria, Italy, and Haiti, as well as being distributed to needy here in the United States.

Any person having clothing of old style or un-needed for any other reason may contact the school for pickup. The drive ends Friday.

### TIPS ON DINING

Every woman's wish is to be a charming hostess when entertaining. Setting a charming table is one of the prerequisites. Here are some suggestions that will help you achieve that goal:

A good rule to remember is: "Allow plenty of room at the table for ease of service." Most authorities recommend that at least 24 and preferably 30 inches be allowed for each place.

Consider the plight of the cave-woman when it came to serving meals. It took all of her strength to carry the crudely fashioned, thick stone plates of that era. Today's Melmac dinnerware is featherweight by comparison—a boon to housewives—and it's highly break-resistant as well.

If you're using a bare table, try to use place mats that conform to the shape of the table. Oblong place mats are adaptable to a rectangular table. If your table is narrow because of limited space, put your place mats along each side, leaving table ends for decorations and large accessory dishes. For a square table, you can use a square center mat and oblong place mats; round centerpiece and round doilies for a round table.

Do you like candles at the table? For a small table, a candelabra may be used, or you can place two candlesticks in the center of the table with a flower arrangement (always fresh) between. For a larger table, two candelabras or four candlesticks. Light the candles before your guests are seated.

Try this at breakfast time: Combine a gay-colored table cover with a similarly bright set of dishes and watch how everyone, including yourself, gets off to a cheery start in the morning. Molded dinnerware, in solid colors or multi-colored decorated surfaces is finding increased use among imaginative housewives.

### DRINKING AND DRIVING DON'T MIX

The occasional drinker behind the wheel of his car has become a familiar problem to the police. This driver has been doing a little celebrating, he's feeling the effects of a few drinks and is not in full possession of his senses. To drive safely these days takes all of a driver's wits, attention, caution, judgment and a clear mind. Tests show that drinking drivers react more slowly in emergencies, are inclined to be less cautious, take more chances, drive at a greater speed. When you have been drinking stay out from behind the wheel.

© AMERICAN MUTUAL LIAB. INS. CO.

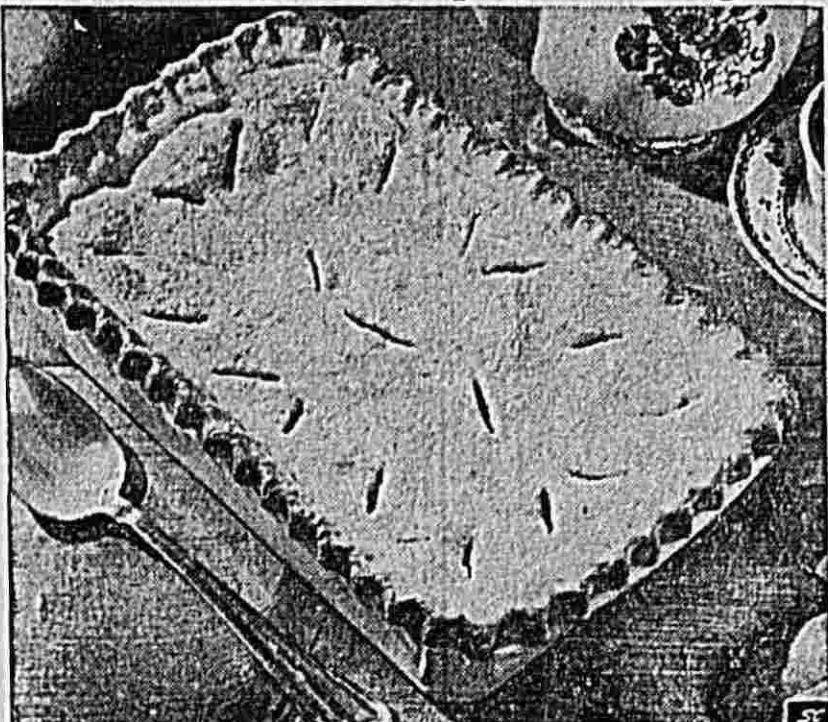

### ICE JAMS

"Check the oil, test the anti-freeze, and since the roads are icy, maybe you'd better pump the brakes!"

NATIONAL SAFETY COUNCIL

### Flavored Sprycrust—A Whole New Concept in Pie-making

Now you can make as many different flavored piecrusts as there are flavors—chocolate, honey, fruit, coffee, just to mention a few. Flavored Sprycrust developed in the Lever Test Kitchens is based upon a creamy "Whip" made by whipping Spry with a chosen liquid. "Hungry Boy" Apple Pie features "Dutch-Whip" Sprycrust made doubly delicious with the tingle of buttermilk and roll-ins of grated sharp cheddar cheese. Here is the recipe:

"Hungry Boy" Apple Pie  
1 recipe "Dutch-Whip" Pastry 1/2 teaspoon cinnamon  
1/2 cup grated sharp cheddar cheese 1/4 teaspoon nutmeg  
1/2 cup granulated sugar 1 teaspoon lemon juice  
1/2 cup light brown sugar, 0 cups pared, cored thin  
firmly packed apple slices  
1/2 teaspoon salt 1 tablespoon butter or  
2 tablespoons flour margarine

Shape pastry into a flat oblong. Roll between 2 sheets of waxed paper into an oblong about 8" x 11-1/2". Peel off top paper. Sprinkle 1/4 cup grated cheese over pastry, recover with paper, and gently roll cheese into pastry. Turn paper and pastry over and repeat process, rolling in remaining cheese. Put sugars, salt, flour, spices, and lemon juice in a large mixing bowl and mix well. Add apple slices and mix well with sugar mixture. Turn into 6" x 10" baking dish. Dot with butter. Peel top paper off rolled pastry and lay pastry over baking dish, pastry side down. Remove top paper. Trim pastry about 1/2" beyond edge of dish all around. Turn edge under, moisten rim of dish, and flute pastry, pressing onto dish. Cut a few steam vents. Bake on lower shelf of hot oven (425°F.) 40-50 min. Makes 6 servings.

"Dutch-Whip" Pastry  
1/2 cup less 1 tablespoon 2 tablespoons buttermilk  
Homogenized Spry 1-1/4 cups sifted all-purpose flour  
1 tablespoon boiling water 1/2 teaspoon salt  
Put Spry in mixing bowl. Add boiling water and buttermilk and whip with fork until all liquid is absorbed and a thick, smooth mixture is formed. Sift flour and salt together onto Spry whip and stir quickly into a dough. Pick up and work into a smooth, blended dough. Makes enough pastry for a 9" pie shell or a 6" x 10" deep-dish pie.

### Things That Cheer an Old Maid

The bald pate on the once handsome youth she thought she wanted to marry.

The "bay window" on the Romeo she once tried to elope with.

The family of sixteen children belonging to the man her mother wanted her to marry.

The burnt-out genius of the would-be poet who wrote a sonnet to her.

The sackcloth trouser effect on

the once irresistible Beau Brummel.

The defiantly happy-thought-married expression worn by her married friends.

Last year, the American Red Cross issued 679,800 certificates to persons completing Red Cross First Aid training.

Wednesday Prayer Service—8 P. M.

## Orange Warmer For Colder Weather

Snow men and skates will be in fashion outdoors for the next few weeks, which means that indoors there'll be more desire for bracing beverages.

One of the best punch recipes for cold days comes up from Florida, along with this year's bumper crop of small, thin-skinned juicy oranges. This year's crop is expected to be the largest on record, and local fruit markets now bear glowing testimony to the fine quality of the current citrus bounty.

This Florida Orange Warmer is a punch that everyone in the family will welcome this nippy weather. The slight heating doesn't affect the vitamin C value of the fruit juice too much—it's still one of the most healthful beverages in the world! Serve with snowball cakes and watch spirits warm up!

### Orange Warmer

6 cups boiling water 6 cups Florida orange juice  
6 teaspoons tea 1/2 cup and 1 tablespoon sugar  
Orange slices, halved  
Whole cloves

Pour boiling water over tea. Steep 3 minutes. Pour into punch bowl. Heat orange juice with sugar. Add to tea. Garnish with halves of orange slices studded with whole cloves. Yield: 12 1 cup servings.

**Sunday Services**

## Deep Lake

Mrs. Millie Luehr, Correspondent  
Eliot 6-4946

Henning Johnson's end of the season party was a huge success. Smorgasbord was served. On Friday Henning invited several of his friends for a lobster dinner. This was a farewell dinner as he left Monday night for Florida for the balance of the winter. He loves his deep sea fishing.

Friday Bob Mulvaney and family of Chicago spent the day with Mr. and Mrs. Harry Voss. Bob is Mrs. Voss' son.

Saturday night Sally Groat entertained Mrs. Florence Larson of Piquette Heights, Helen Voss and Millie Luehr. Canasta was played. Mr. and Mrs. Wilson of Waukegan visited their sister-in-law, Sally Groat on Sunday.

On Friday Florence Johnson, Edna Stevens, Frances Larson, Doris Metz and Bunny Sanders attended Lake Villa school. Christmas ornaments and trimmings and package tying was demonstrated. The Woman's Club of Lake Villa sponsored the program. Refreshments were served.

Mr. and Mrs. William Ufer were dinner guests of Mr. and Mrs. R. Sanders Saturday and on Sunday Mr. and Mrs. Jack Eckhardt and family were dinner guests. They live in Des Plaines.

The Ladies Auxiliary board will meet Friday at the home of Lois Olsen.

Ebba Huber's son, Ronnie, is engaged to a lovely girl Mary Ellen Murphy of Seattle, Wash., where he now resides.

### CURB THE HURRY TO CROSS THE STREET AGAINST TRAFFIC

Don't cross a street against moving traffic that is temporarily stalled because of a slight congestion in traffic ahead. When this traffic in one or more lanes suddenly moves, you may be caught in the middle of the busy street to dodge between vehicles or depend on them to stop so that you may reach the far curb. For your safety, cross the streets only at intersections and only step off the curb after you have looked and are quite sure you can safely reach the far side of the street.

© AMERICAN MUTUAL LIAB. INS. CO.

### IMPROPER PASSING

There is a very good reason why you should always wait for the proper time and place to pass another vehicle—that's to make sure the road ahead is clear. When you can't see what's over the hill, around the curve ahead or when an approaching car is in your way, do not pass. Remember to obey the traffic markings painted on the road. After safely overtaking and passing, check the position of the other car in the mirror before you move into the right lane ahead of him. It is a good driving practice that many of us forget.

# WHO PAYS?

"GIMMICKS, GIVE AWAYS, FREE TRIPS, NOTHING DOWN AND PROMISES TO BEAT ANY DEAL," WE ASK YOU WHO PAYS FOR THEM?

Buying a car is a serious investment . . . be sure you aren't tricked into a deal which is false economy. True, one of the joys of earning a living is spending the fruits of your labor where and when you please. For the most part there are no strings attached to the income at your disposal. Only common sense governs expenditures.

It's truly unfortunate, but soon people from Antioch will have fallen prey to the "city boys'" glib offers of gigantic savings, longer than healthy terms, and other gimmicks. In the final showdown most have learned to their dismay that they actually LOST MONEY on their "tremendous" deal.

DON'T BE MISLED — every auto dealer must pay the manufacturer the same price for each unit he sells and each dealer must take a profit to stay in business . . . someone has to pay for the gimmicks and the high cost of advertising those "tremendous" deals . . . through the sub-standard products and service that must go hand in hand with such tactics . . . IS IT YOU?

Your Antioch dealers are in business today — and will be in the years ahead — because, they offer the best automotive quality available and stand solidly behind the cars they sell. The competition between us is keen — but CLEAN! If one can't sell you we hope the other can because we all know that it's good for you and for our community.

Your Antioch Automobile Dealers have a BIG investment in their shops, equipment, tools and parts to be used for your constant and efficient service.

The taxes they pay — on business and home — play a very important part in keeping your taxes equitable.

The car says "GO"  
and the price won't stop you!

That long and lovely creation shown in action above—glamorous with smartly distinctive car-of-the-future styling and packed with all the terrific "go" suggested by its fleet and flowing lines—is actually a member of Pontiac's lowest-priced series, the value-setting 860 line. And here's what this information means to you!

Whatever your new-car plans for '56—even if you're shopping at the bottom of the price scale—this big and beautiful mile-shrinker can be yours!

You can now look forward to luxuriating in the gracious comfort and solid roadability made possible by a man-sized 122" wheelbase—just about as long as they come!

You can now expect to enjoy the finest, smoothest performance that ever set pulses

racing—blazing Strato-Streak performance from the most modern and efficient V-8 engine that ever powered a car.

You can plan on it, definitely, because there's not a thing to stop you—as the figure on the price tag plainly shows.

For instance, your favorite body style in the 860 series carries a price within a whisper of the cost of the smaller, lighter-powered lowest-priced cars! And that's just the start.

We're trading right now to set an all-time record for December. When you've heard our deal you may very well discover that there's virtually no difference in price at all!

Come in and confirm that the 860 is the easiest car to want and to buy that ever came your way. The proof is easy—just take the wheel and go as you've never gone before!

IT'S A FACT—YOU CAN HAVE ALL OF  
PONTIAC'S BIG-CAR GLAMOUR AND  
GO FOR LESS THAN THE PRICE OF 44  
MODELS OF THE "LOW-PRICED THREE."
